Hire now

SUMMAR

Started to work in IT 10 years ago. At the age of 21 I became the head of a department of 10 people at an industrial enterprise. Have deep technical background as I went a road from intern PHP developer to the Lead backend developer and then switched to management. There was a moment when I was working with 9 projects simultaneously with overall 25 team members. I like to work with optimization, to increase team speed and project quality. I like to work with lean methodology and improve processes step by step. I am a football player and cycler.

WORK EXPERIENCE

Delivery manager and Program director, Perceptionbox   **03/2018 - Present**
Manage few big projects in a time. Improve processes in the team.

Delivery manager, Fundseeder   **04/2017 - 03/2018**
The project is financial startup for traders with more than 10K+ active users. I created a simple structure of communication between different branches of project. And work with improving team's and projects' KPI.

Team Lead & Project manager, Crmtronic   **04/2015 - 03/2017**
The project is lightweight crm system for small companies. Start to work in project in initial stage. Manage a 12 team members. As a result we had a user increasing near 20% each month. And in the end of contract I helped to create international version of the project.

Team Lead & COO, 5-soft   **04/2010 - 03/2015**
Work with a team of 15 people. For this time were developed or maintained more than 50 projects. There were few projects with dedicated team(5-7 engineers) that were successfully finished.

Software developer, 5-soft   **08/2009 - 03/2010**
Start work as trainee and after 2 years became a team lead in a team.
